$1,095,000 | 5 BEDS | 3 BATHROOMS | 1 HALF BATHROOMS | 4245 SQUARE FEET

View Online: http://www.3411DoverRoad.com

Unique property in Hope Valley! Originally a raised ranch built in 1983, this home was renovated to become a two level home with an oversized detached garage. Interesting architectural features inside and outside make this home a true delight: cathedral ceilings with exposed beams in living room, master and hall bath; tin ceiling in kitchen; beautiful cabinetry and built ins; an expansive stone patio with fire pit and much more! Special features include a home theatre (sound insulated), an office or playroom, two sinks and two dishwashers in the kitchen, a whole house generator that operates seamlessly when needed, a detached garage with storage above-space could be finished, covered access between garage and house. The list goes on. This home needs to be seen to be fully appreciated.
