This is a home you MUST SEE in person, really!!! It is over 3000 sq ft and has a backyard you could live in! 4 oversized bedrooms with a possible 5th, the office/study does have a closet. The chef of the household will finally have their dream kitchen with all stainless steel appliances, glass cabinetry, and tons of space. Oh, and the refrigerator does stay! Let's talk about the expansion into the backyard! Wow!!! It has electric ready go for a hot tub and wired for a TV. Perfect evenings in your private area that backs to green space.
